WHO WE ARE?

Jianye Group is one of the leading business conglomerates in Guangzhou with special focus in manufacturing, OEM/ODM, marketing and distribution organization, deeply embedded in the industries and markets it serves.
广州番禺建业进出口贸易有限公司是广州地区一家对内外贸易一体化的公司。

We are focusing in hotel and restaurant equipment, industrial and commercial laundry equipment, air compressors, steel storage systems, machine tools and handbags.

核心业务：酒店餐厨设备、空压机、工业商业洗涤设备、数控机床、钢制储存、棉纱等代理品牌业务和自营品牌业务。

Professional Steel Storage System

ABOUT ONETOOL-站式

Supply one-stop steel storage solution 钢具储存解决文案

ONETOOL is a member of JINAYE GROUP, more than 18years manufacturing experience in STEELWORK. We insist on offering high quality products to customers, enjoy a high reputation in our customer group and industry.

ONETOOL为建业集团旗下的一个品牌, 18年专业生产钢制品, 一直以来是广州地区生产钢制产品的先驱者。ONETOOL一直以质量取胜, 从不加入市场的价格战, 产品深受各企业、政府、学校、医疗、酒店等企事业单位的认可及支持。

ONETOOL storage rack, provide and create a safe and efficient storage environment with high space utilization to customers. Focusing on the design and manufacturing of light, medium, heavy duty rack and the mezzanine rack. With the characteristics of multi angle, high safety coefficient and large bearing capacity.

ONETOOL 仓储货架, 为客户提供和创造一个高效的存储环境, 专注于轻、中、重型货架、阁楼平台、悬臂货架的设计与制造; 拥有多条先进冷弯成型自动化货架生产线及一批横梁自动焊接生产设备, 生产严格执行《货架行业标准》, 所生产的货架具有多折角, 安全系数高, 承重力大等特点。

ONETOOL station equipment, a 'must have' tools organizer for higher efficiency and productivity in workshop, service center, vocational institution, production line, R&D center, automobile service garage, university or anywhere tools are being used for service, repair, overhaul or production.

ONETOOL 工位器具, 作为车间里必不可少的钢制储存设备, 适用于盛装各种零部件、原材料等, 满足生产需求, 方便生产工人操作, 是生产过程中每一个环节所不能缺少的, 这是企业改革发展的要求, 对保证产品质量、消除无效劳动和浪费、提供工作效率机工作质量、便于科学管理、保证安全生产、改善作业环境、促进文明生产都有一定的积极作用。

ONETOOL steel office furniture, offering a wide range of office furniture for the school, company, government, hospital, hotel, fitness center, etc.

ONETOOL 办公家具, 提供一系列的办公家具, 如文件柜, 书柜, 电教讲台, 员工柜, 员工衣柜, 鞋柜, 密码柜等适合于学校, 企业, 政府部门, 医院, 酒店, 健康中心等。可接受客户独特的设计要求和多种颜色选择。

R&D ability: we continuously develop our R&D, pay attention to the market trend, grasp the opportunities, create and improve the products to meet market demand. Meanwhile, provide professional OEM service.

ONETOOL自主研发部, 我们不断发展研发, 关注市场趋势, 把握机遇, 创造和改进产品以满足市场需求。同时, 提供专业的OEM服务。

重型货架

Heavy duty rack, also called beam rack, suitable for storage of all kinds of goods, can operate with forklift and stacker, widely used in high warehouse. 重型货架适合储存各类货架，特别适合于使用叉车及堆垛机的操作使用，是众多企业广泛采用的货架。

Features of Heavy Duty Rack

- Assembling structure, consist of upright, beam and related accessories, fully adjustable and easy installation.
- One of the most popular storage system, also call pallet rack or beam racking.
- Full range of accessories for various pallet type, and different request on size and load capacity for the system.
- A full range of accessories to enhance the safety for the storage system, such as safety key, upright protector, frame protector, etc.
- Load capacity: large carrying capacity, up to 10ton/layer.
- Layer height: each 75mm pitch can be adjusted.

2300x1000x4800	95x70x1.5	120x45x1.5	2000	3

阁楼式货架

阁楼式货架是在已有的工作场地或货架上建一个中间阁楼，以增加存储空间，宜存取一些轻泡及中小件货物，适于多品种大批量或多品种小批量货物，人工存取货物。货物通常由叉车、液压升降台或货梯送至二楼、三楼，再由轻型小车或液压托盘车送至某一位置。

Features of Mezzanine Rack

- Mezzanine rack system, built a loft in the rack, modular structure, can be used in board, pattern plate, steel and other material as the floor.
- Normally used for higher warehouse, can manual access, store the small goods packaging with large storage capacity, such as electronic equipment and machinery spare parts and others, make full use of space.
- Can be designed into two layers and multilayer, high space utilization and double make use of the ground space.
- Rack can be light, medium or heavy loading, any type is available, matching the users' actual requirements completely.
- Eliminate leased space costs and work in high efficiency combined with the lift platform.
- Strength and rigidity prevents compression damage to goods.

Mezzanine rack panel options 阁楼式货架隔面板

Grating plate 网格栅板

Pattern plate 花纹钢板

Perforated plate 冲孔楼板

Wooden plate 木楼板

Carbon steel plate 碳钢楼板

Features of Steel Platform

钢平台

- The steel platform is characterized by large carrying capacity, flexible design, easy to use and simple installation, has been widely used in the workshop or warehouse to effectively increase the storage capacity of the warehouse.
- All composite structure, and uprights are made from square or round tube, the beams are H type steel.
- As for the high warehouse, two or more layers of steel platform can be designed.
- Can be equipped with staircase and goods elevator.
- Suitable for storing smaller items, within easy reach of warehouse personnel, for easy picking of boxed stock.
- Can be completely disassembled, all parts can be reused, and their structure, size or location can be easily modified.

Installation site

窄道式货架

Very Narrow Aisel (VNA) rackign systems: making full use of roof height to create ultimate storage capacity with high ground utilization rate. The system maintains the essential 100% accessibility and outstanding goods protection feature to ensure quick picking rate and flawless stock rotation.

窄道式货架通道窄小，增加了仓储空间的利用率，地面的使用率高。存取货物速度较快。适用于仓库比较高，对整个仓库空间利用率比较高的用户。货架存储密度极高，但其投资相对较大，对货架品质，安装品质要求也比较高。

Features

- Suitable for storage large amount of goods, the goods in and out frequently, high requirement on sorting the goods.
- Suitable for the warehouse available clear height is higher, more than over 8M.
- The passageway is much more narrow than the general racking system, which will be about 1600mm-2000mm, greatly improve the warehouse space utilization.
- There is guardrail around the rack as the guidance system fo the forklift, avoided the forklift driver danger on the rack because of artificial factors, which is lower requirement on the driver.

Standard Pallet Rack Configuration

Very Narrow Aisle Rack Configuration

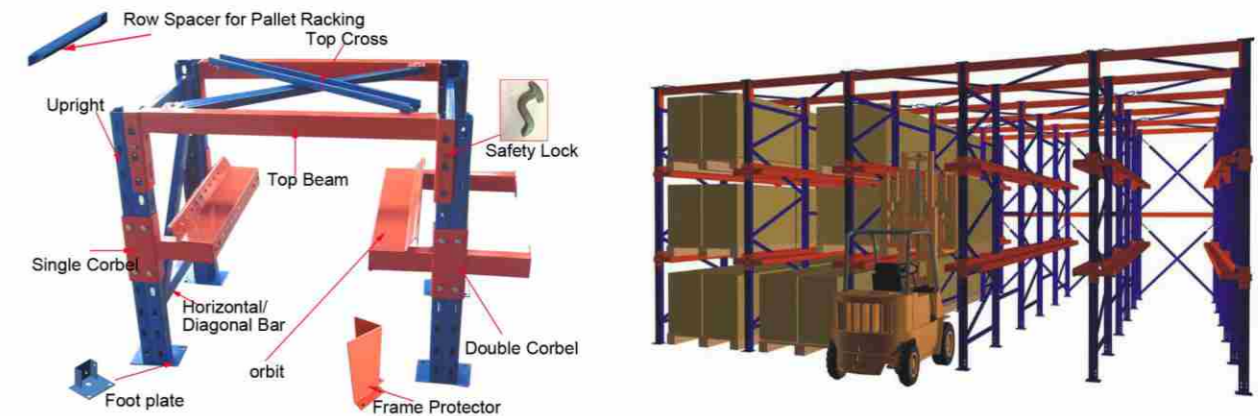

驶入式货架

DRIVE-IN RACK

驶入式货架是一种不以通道分割的、连续性的整栋式货架，采用托盘存取模式，适用于品种少，批量大类型的货物储存。与货位式货架相比，驶入式货架的库空间利用率可提高30%以上，广泛应用于各类仓库及物流中心如：食品、烟草、乳业、饮料等行业，冷库中也较为多见。

- Goods storage channel also is the forklift transportation channel, with high storage density;
- This system is designed to efficiently suit to storage of homogeneous products in large quantity. Picking and storage is facilitated by forklift driving right into the racks. Suitable for food, tobacco, dairy, beverage and cold room storage, etc;
- Created to offer maximum storage capacity by using up only minimum space;
- Through the stability of drive-in racking system is relatively weak in all kinds of shelf, it can not too high, generally within 10M, 3~4 layer of tray height, total depth design up to less than 7 tray.

APPLICATION

穿梭式货架

Application: Suitable for the goods with large quantity and few kind, such as food, beverage, chemical, tobacco and so on.
 适合存储空间有限，需要最大化利用空间的仓库，对仓库较小的厂家是很好的选择。

- Shuttle rack system is composed of high density storage rack, shuttle cow forklift, convenient ex-warehouse and warehousing, high access efficiency during ex-warehouse and warehousing.
- Shuttle rack removes the need for forklift trucks to enter the aisles and hence offers a cost effective and time saving storage solution.
- Better safety and anti-seismic performance than drive-in racks.
- Reduce the time in cold working, improve work efficiency and working security.
- Operating flexibility, the access of goods: FIFO and FILO are optional.
- Smart outlook, firm and durable, no need to maintenance.

Save Time
 +
Save Space
 =
Save Money

Shuttle car 穿梭式台车

Guide plate 导向板

Guide rail junction plate, with good bearing strength. 导轨连接板特殊型材，配合导轨，承载强度好。

Remote control 无线遥控

Shuttle car can move the shelves from the depth of the tray to the front, use the forklift to take down the goods.
 穿梭车将货物深处的托盘移动至货架最前端，用叉车将托盘货架从上取下。

悬臂货架

Cantilever Rack is one of the most important storage rack. For storing long material, sheet, pipe and irregular goods.
悬臂货架适用于存放长物料，环形物料，钢材，管材以及不规则货物。

Features of Cantilever Rack

- Can be single-side or double-side.
- Stable structure.
- Good load capacity.
- High space utilization.

Why need STATION EQUIPMEN ?

Station Equipment as a 'must have' tools organizer for higher efficiency and productivity in

workshop **service center** **vocational institution** **production line**

R&D center **auto-service garage**

or anywhere tools are being used for service, repair, overhaul or production.

STATION EQUIPMENT can realize:

Production standardization 生产标准规范化

The trend of development of enterprise, meet 5S management

Time, labor, space saving 省时, 省人力, 省空间

Saving the time of tools searching which used to be on the ground or anywhere.

No need to hire someone specially in charge of material and tools management. Each working station will own their station equipment which the tools they need have been prepared inside.

Station equipment make full of space to improve storage capacity, which realize space saving.

High efficiency and productivity 高效

Station equipment as a good helper for the worker, play an important role in improving productivity and efficiency for the enterprise.

Professional image 专业形象

Improve a company's soft power and corporate image, offer a pleasing working environment to the worker, which can raise their working enthusiasm.

Saving Money

Low investment, high return.

Heavy Duty Workbench

重型工作台

Heavy duty workbench, is built for rugged durability and stand up to the harshest work environments. It can be customized with a broad selection of accessories to meet your particular machine tool or production line needs. Widly used in the factory workshop, warehouse, maintenance workshop.

- Steady frame with maximum capacity 1000kg.
- Various of surface material, adapt to different application.
- Multiple standard accessories: Square hole hanging panel, Louver hanging panel, work light, tool cabinet, table vise and so on to meet the needs of various station.

Classification of Worksurface

- **Composite Board** : Powerful comprehensive, suit for installation, debugging and beating lightly.
复合台面：耐油、耐磨耐酸碱、抗冲击力强，多用于轻、重型工作台。
- **Beech Board**: suit for heavy molds and machinery.
榉木台面：适用于重型模具和机械使用。
- **Fireproofing Board**: use for light duty workbench.
防火板台面：多用于轻、重型工作台。
- **Stainless Steel Cover Board** : suit for the environment with oil, corrosive or ultraclean.
不锈钢台面：美观、强度好，耐磨耐用，耐酸碱，多用于轻、重型包装、检测工作台。
- **Metal Cover Board** : Good strength, impact resistance, wear-resisting & durable, long service life, use for heavy duty workbench.
铁板包面：强度好，耐冲击，耐磨耐用，使用寿命长，多用于重型工作台。
- **Metal Board** : High strength, strong impact resistance, wear-resisting & durable, long service life, can assemble with vise, usually for heavy duty vise bench and maintenance workbench.
铁板台面：强度高，抗冲击力强，耐磨耐用，使用寿命长，可装配台虎钳，多用于重型钳工台、维修台。

Features of Composite Board 复合台面工作台

- Good surface roughness.
- 2mm thickness of PVC surface material which with the function of acid and alkali resistance, abrasion resistance, oil resistance.
- Use high pressure fiberboard for table, with impact resistance.
- Special circular table angel to prevent the damaged from the operation.
- Use sealing side of high strength plastic, it is stable, practical, not easy to damage, not easy to fall off.

Special Composite Workbench
Model: OTSD-1504S
Spec: 1500x750x(800+960)mm
20GP container: 68 units
40HQ container: 153 units

Composite Workbench with Double Cabinet

Model 型号	OTDD-1844
Dimension 尺寸	1800x750x800mm
20GP container	39 units
40HQ container	98 units
Drawer size 抽屉尺寸	L490xW390 H:80/120/200/200mm

Composite Workbench with 2-Hanging Drawer

Model 型号	OTHD-1502
Dimension 尺寸	1500x750x800mm
20GP container	77 units
40HQ container	185 units
Drawer size 抽屉尺寸	440x390x80/100mm

Composite Workbench with 1-Hanging Drawer

Model 型号	OTHD-1501
Dimension 尺寸	1500x750x800mm
20GP container	123 units
40HQ container	290 units
Drawer size 抽屉尺寸	440x390x80mm

Features of Beech Board 榉木台面工作台

- Hard material, straight texture, reasonable structure.
- Wear-resisting, with luster, not easy to deformation.
- Easy processing, painting, good agglutination.

Beech Workbench with Double Cabinet

Model 型号	OTDD-1844
Dimension 尺寸	1800x750x800mm
20GP container	39 units
40HQ container	98 units

Beech Workbench with 2-Hanging Drawer

Model 型号	OTHD-1802
Dimension 尺寸	1800x750x800mm
20GP container	66 units
40HQ container	156 units

Features of Stainless Steel Board 不锈钢台面工作台

- Flattening, safety, good strength, attractive, durable, 100% recycled.
- Resistance to air, steam, water and other weak corrosive medium. Resistance to acid, alkali, salt and other chemically aggressive medium.
- Suitable for using in dustproof, anti-corrosive environments. Improve the process condition with good effect.

Stainless Steel Workbench 02

Model 型号	OTWD-1500S
Dimension 尺寸	1500x750x(800+960)mm

Stainless Steel Workbench 03

Model 型号	OTDD-1844
Dimension 尺寸	1800x750x800mm

轻型工作台

LIGHT DUTY WORKBENCH, With a flexible selection of standard components to meet the market requirement. Mostly use for repairing, testing, assembling, mechanical, electronic products and components, as well as packaging, calibration and R&D development.

Features

- Special design for placing the top shelf in horizontal or 30 degree to access the tools easily.
- Tools displayed clearly, easy to take and put.
- Esd robber mat, suitable for different environment and conditions.
- Hanging the air tool, slide left or right smoothly. Fluorescent lamp can be installed inside.
- Use with hang bins, storage the parts in an organized manner.
- Adjustable leg, 10cm height can be adjusted and fixed on the ground, keep balance.

Light Duty Workbench

Model	LDW-12ABCDE
Load capacity	500KG
Dimension	1200x750x(750+1050)mm
Net weight	52.2KG
20GP container	183 units

工具展示架

Tools Display Rack with two main parts: square hole hanging panel and louver hanging panel, combine with hang bins, pothook, top shelf and other accessories. Which is helpful to classify the storage of small amounts of tools and materials, easy to transport and make full use of space.

Features of Tools Display Rack

- Suitable for putting small parts;
- Save space, clear and tidy;
- The pothook used with square hole hanging panel, can be changed the hole position arbitrarily, safety and steady, satisfy the fixed location management, save time for searching; Hang bins used with louver hanging panel, small tools and materials can be separated storage by different color.

Light Display Rack 工具展示架

数控刀具储存

CNC Tool Storage specially store the cutter of various lathes. It's made of high-quality steel, stable and durable. Commonly used in the factory machining center, to facilitate centralized management of the milling cutter.

Features of CNC Tool Storage

- Use bolt structure, can match up ISO and HSK series standard cutter;
- Herringbone pore structure, the tool apron can be adjusted to 0,15,30 degree by the bolt;
- All thread structure, easy installation;
- Equipment with stowage plate, convenient to storage other tools;
- Fully closed structure can be choose, dustproof and safety, suitable for tool magazine.

Tool Apron

Tool Apron is the basic product for cutter storage series, can be used cooperatively with tool trolley, tool rack, tool cabinet for milling cutter, convenient for the transportation and storage of the milling cutters.

Storage BT and HSK series cutter, the material of the tool cover is ABS.

High strength, oil resistance, no damage to the cutter, can be used with drawers.

High quality cold-rolled steel sheet and special spray surface treatment, sturdy and durable; Use the screw to fix the tool cover on the tool apron, no need to change the tool apron, just change the tool cover after long time using.

Special design of the galvanized handle and special position, make it convenient to take in different workshop.

Features

- The tool apron use with tool cabinet cooperatively
- Modular design, arbitrary combination, strong universality
- The hooks end of the tool apron, match with the bolt, more safety and reliable when using
- ◆ The tool apron is customized according to the number of cutter and the size of the tool cabinet.

物流台车

Logistic Trolley is a kind of equipment with four castor to transport and storage the material. Commonly use for logistics distribution in the supermarket or logistics turnover between the factory processes.

Features of Logistic Trolley

- Time and labor saving when transport, load and unload the goods;
- Product display markedly;
- Guardrail door and adjustable shelves can be provided if needed;
- Classification of goods storage, easy management;
- Assort with circulation boxes to use, convenient for delivery;
- Can folding stacking storage to save space;
- Use high quality steel sheet, sturdy and for durable.

Now,
Hong Kong
Has fully promote this
independent stall,

WHAT DO YOU WAIT
?

Independent Market Stall 新型排档

To our dear customers:

ONETOOL, is not just a manufacturer for producing steelwork, we are focus on the development of the market, listen to the requirement from you, our R&D team will discuss together and make the product meet the trend of the market and your demand. Your trust is the best motivation to us.

ONETOOL, 致力开发新产品，迎合市场新趋势。

你有需求，我来实现！

Independent Market Stall

-  Have you ever thought that, people didn't come into your stall just because your stall didn't attract them
-  Do you always boring that is not enough space to show your products clearly
-  Do you pay too much time on the preparation of opening your stall and closing, and less time on your family?

Different from
the traditional stall,

The new type independent market stall enjoy following

A new age of product: Independent Market Stall

Practical design, Wide range of application, Suitable for clothes, Jewelry, Small appliance, Mobile phone accessories and Food selling.

汽修行业
**SOLUTIONS FOR AUTO-SERVICE,
 REPAIR & MAINTENANCE**

Tools displayed clearly with tool trolley and tools rack, convenient for workers to take. Needed tools and parts put in the shelf trolley and be transported to the working station, saving time for searching and labor waste. No need to work on the ground, can work on the workbench, improve working efficiency and environment.

Refer to 31

Tools display rack

Tools and parts displayed clearly, easy take and move, also can be designed on the wall

Refer to 29

Tool Trolley

Large load capacity for storage and display the tools and parts.

Refer to 23

Heavy duty workbench

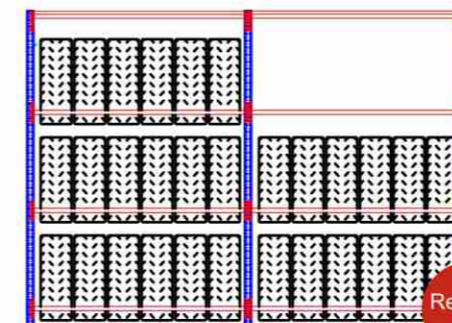

Load capacity reach 1000kg, can do repairing on the table, such as the air-end.

Refer to 30

Shelf trolley

Simple structure, 300kg load capacity, for the frequently-used tools temporary placing, convenient for taking and moving to the different working station.

Refer to 05

Cartwheel storage rack

Specially used in the auto-service for the cartwheel display and storage.

**SOLUTIONS FOR 电子行业
ELECTROIC INDUSTRY**

Refer to 26

Light duty workbench

Functional workbench can meet the different requirement of the production line, such as assembly, wiring, debugging and packing.

Refer to 28

Shelf trolley

Can put in the tools which always been used or transport the small workpiece.

Refer to 33

Logistic trolley (table trolley)

Use to transport the goods to next process or warehouse.

Refer to 25

Heavy duty workbench

Table surface can be chosen base on requirement.

**SOLUTIONS FOR 机械制造业
MECHANICAL PROCESSING**

Refer to 27

Tool Trolley

Large load capacity for storage and display the tools and parts.

Refer to 31

CNC tools trolley

Use in CNC machinery workshop, display the CNC tools clearly and easy to take.

Refer to 28

Shelf trolley

The finished goods can be placed in the shelf trolley; tools can be placed on it, which is needed to be transported at any time.

Refer to 25

Heavy duty workbench

Can install with vise to use, 1000kg load capacity.

SOLUTIONS FOR 仓储物流
WAREHOUSING & LOGISTICS

Warehousing and logistics are the important parts in the enterprise. Station equipment will be a good helper and organizer in space management and time saving.

Refer to 34

Stacking rack

Folding structure, goods storage directly, no need to add the pallet. Easy to transport by forklift at any direction.

Refer to 10

Storage rack

According to the actual requirement, light duty or heavy duty can be chosen.

Refer to 33

Logistic trolley (table trolley)

Storage the goods in the warehouse, which can be transport easily at any time. Also can customize the logistic trolley base on the product features.

Refer to 29

Tools display rack

Use for the tools unified management.
